DISTRICT ETDM STATUS REPORTS
THROUGH JUNE 2005

District 1

ETDM Team Outreach

- Conducted a coordination meeting with Steve Terry of the Miccosukee Tribe of Florida, CEMO, and FHWA to discuss the ETDM Process and ways for collaboration.

MPO/FIHS Coordination

- Coordinated with MPOs and FIHS on the development of purpose and need statements for two Programming Screen projects and eight Planning Screen projects
- Coordinated with MPOs on the development of SCE evaluations for these projects.

ETAT Review

- Completed review of agency comments for four Programming Screen projects and completed the draft Programming Summary reports.
- Released two Programming Screen and three Planning Screen projects for ETAT Review.
- Prepared SCE evaluations for programming and planning screen projects in coordination with MPOs.
- Reviewed agency comments for the Ft. Myers Beach Mid-Island Bridge project.
- Completed ETAT review of Harborview Boulevard and SR 82 Programming Screen projects.

D1 ETDM Team Coordination

- Conducted strategy meetings with the D1 ETDM Team on May 19 and June 28.

SCE Data Collection

- Progress continued on the SCE Module under development on the servers at GeoPlan.

District 2

- Finishing up Socio-Cultural data supplements for North Central Florida regions with NCFRPC.
- Working on Social-Cultural data supplements for North East Florida region with

NEFRC.

- Ran 3-4 projects in programming screen.
- Met with FHWA on COA determination in EST. Continuing discussions on the proper information input to get proper COA determination. Trying to avoid things being classified as EIS when full information is given when project will actually be a Cat Ex or EA/FONSI.
- Finalizing new ETAT web site to keep ETAT updated on projects that have been through programming screen and have moved into PD&E.
- Scheduled next D2 ETAT meeting for Sept 21& 22nd at Sea Turtle Inn, Atlantic Beach.

District 3

- Continuing to develop a Scope of Services for ETDM Activities
- As a result of the Florida-Alabama Long Range Transportation Plan 2025 Update 21 projects will be submitted for input into the Planning Screen. These projects are currently being digitized and purpose and need statements are being developed.

District 4

- Planning Summary Reports finalized for two FIHS I -95 projects.
- Continuing Project Development using ETDM Process on SR 70(Okeechobee Road).
- Advertising for consultant selection on Flagler Memorial Bridge for ETDM Project Development.
- Released 2 Bridge Replacement Projects for ETAT review.
- Working on Description and Purpose and Need for 1 Bridge Replacement project for entry into EST and ETAT review.
- Working on Description and Purpose and Need for 6 advanced SIS projects for entry into EST and ETAT review.
- Processed Class of Action for Glades Road @ Powerline Road and SR 811/Alternate A1A. Preparing Advance Notification for both projects.
- Standardized Primavera scheduling template for ETDM Project Development ready for final QA/QC.
- District 4 and 6 Joint ETAT meeting held in Fort Lauderdale on June 20 & 21.

District 5

- Completing data collection and coordination efforts for four future Planning Screen Projects:
  - SR 50 widening from SR 33 to Bloxham Ave. in Lake County
  - SR 50 re-alignment from SR 50 West merge to SR 33 in Lake County
  - SR 430 from SR 483 to Seabreeze Bridge in Volusia County

- o US 92 from Nova Rd. to US 1 in Volusia County
- Sent one Planning Screen Project to ETAT for Review;
  - o SR 19 from CR 48 to CR 561 in Lake County
- After final ETAT review reminder was sent for SR 19 project, the District initiated calls to several ETAT members who had yet to respond within the last week of the review. One outcome of the calling included an individual being reminded to get his draft comments back from someone else within his agency so he could input them in the EST before the deadline. Another ETAT member, from FTA, let us know that he had looked at the project information but had no comment; which will be noted in the Summary Report. He also requested an EST refresher course.
- Completed Planning Summary Reports for the following projects;
  - o US 441 from Orange County Line to CR 44B in Lake County
  - o US 441 from CR 42 to CR 475 in Marion County
  - o SR 46 from SR 415 to Volusia County Line in Seminole County
- Completed Programming Summary Reports for the following projects;
  - o SR 46 from Mellonville Ave. to SR 415 in Seminole County
  - o US 17/92 from Shepherd Rd. to Lake Mary Blvd. in Seminole County
- Developed and sent invitations for District ETAT meeting scheduled for August 3 & 4 in Cocoa Beach.
- First D5 ETDM Newsletter finalized and mailed 5/19. Next newsletter send date is August.
- Selected consultants for the District's two major ETDM contracts: one for support services, the other for technical studies.
- Met with Volusia County MPO director and MPO ETDM Coordinator to discuss possible projects and schedule from their Cost Feasible List update for uploading into the EST. With changes in funding policy they said they would have one new project on their list, and this project has already gone through PD&E. Since this MPO had anticipated more Cost Feasible projects for screening than any other MPO in our district (around 100 originally), this news came as quite a surprise.
- Coordinated with METROPLAN Orlando (MPO covering Orange, Osceola, and Seminole counties) to aide them in their first MPO-initiated EST screening to take place in fall of '05.
- Sixteen new potential projects were slated for ETDM Screening over the next year. Local funding availability to match TRIP funds will help to determine the consideration of these projects; therefore a screening schedule is still tentative at this point.
- SCE updates:
  - o Coordination with MPO liaisons ongoing regarding local government coordination.
  - o East Central Florida Regional Planning Council & consultant completed update of six SCE data layers for Volusia County. Data layers and metadata were sent in standard format to GeoPlan for uploading to the EST. Goal is to have updates ready in the EST before two Daytona projects are sent to ETAT late summer '05.

District 6

- Prepared for and conducted Joint ETAT Workshop with Richard Young (District 4) to discuss projects (Held on June 20th/21st in Fort Lauderdale).
- Coordinated upload Card Sound Road project in the EST (sent to ETAT 7/8/05)
- Coordinated update of the 2005 Project Schedule to include a detailed review timeline for each project
- Verified that the 2005 projects are consistent with the Miami-Dade 2030 LRTP (One exception: Flagler Street Project)
- Coordinated with the Miami-Dade MPO on Project Schedule (ongoing)
- Developed Purpose and Need Statements/Project Descriptions for July 2005 Projects:
  - SW 107th Avenue from Flagler to 8th/9th Street (Approved by Project Manager; Need to send to Carlos for review)
  - SR 968 (Flagler) from NW 2nd Avenue to 27th Avenue (To be revised based on input from Project Manager)
  - I-75 Interchange at 154th Street
- Work with EST Development Team in implementation of Project Input Tools.

District 7

- Submitted five (5) Pasco County projects in the Planning Screen for ETAT review.
- Evaluated the GIS data and ETAT comments for four (4) Hillsborough County projects. This information was used to develop a degree of effect for these projects.
- Evaluated the GIS data and ETAT comments for three (3) Hernando County projects. This information was used to develop a degree of effect for these projects.

Turnpike Enterprise

- Submitted three projects for ETAT review
  - Turnpike Interchange Improvements at Sunrise Boulevard, Broward County
  - Turnpike Widening, Lakeworth to Jupiter, Palm Beach County
  - Seminole Expressway Widening, Aloma to I-4, Seminole County
- Completed two Summary Reports
  - Turnpike Interchange at Sterling Road, Broward County
  - HEFT Widening, US 1 Cutler Ridge to US 1 Homestead, Miami-Dade County
